

 **audio pro** business

True wireless sound system

Good sound makes good business

So, music is good for your business. But what about the sound itself? The right music with good sound and good acoustics can definitely help both your brand and your sales.

The power of sound

For 40 years Audio Pro has been synonymous with great sound from small speakers.
For almost as long, music in retail has been an established and well studied field.

Fits any EU 110 to 240V track system for lights. Easy to install and set up.

All products
are available
in white/black

SP-1 - Speaker

12W digital amplifier, full range driver 2,75".

SP-3 - Speaker

2x25W digital amplifier, 0,75" tweeter, 4,5" woofer.

SPW-5 - Speaker

2x25W digital amplifier, 0,75" tweeter, 4" woofer.
Suited for indoor/outdoor wall-/ceiling mount. IPX4.

Wall-, ceilingbracket

WAB-1 for SP-1, WAB-3 for SP-3

SUB-1 - Subwoofer

80W digital amplifier, 6,5" woofer.
The perfect partner for SP-1.

SUB-3 - Subwoofer

100W digital amplifier, 8" woofer.
Works great with both SP-3 and SP-1.

TX-1 - Transmitter

Connects to any source - streaming box, smartphone, iPad, stereo equipment or network player. The transmitter needs no software or installation.

VOL-1 - Volume control

This easy to use master control handles all your audio levels. You can set different audio levels for different parts of your store, office or restaurant, and also adjust master volume.

Plug & play

Where a traditional retail installation takes 2 days, Audio Pro Business takes no more than 2 hours.

Wireless for real

Audio Pro Business is developed for total wireless freedom. Overcrowded Wi-Fi areas are no longer a problem.

Light & sound

Easily add our speakers to lighting tracks and instantly play wireless music. Where there is light, there can be sound.

Flexibility

Change speaker positions in a snap. No need for expensive installations. Ready for never ending future changes.

Cost effective

Quick installation and flexible for changing position. When moving you can easily bring your sound with you.

Premium sound

High quality drivers, combined with advanced DSP controlled digital amplifiers and solid acoustic engineering gives an excellent sound quality.

Multiple zones

With up to 6 different volume zones you will be able to play music with perfect volume for each customer environment and situation.

Freedom

You can play music from any sound source. Meaning you are free to change source or music supplier without problem.

High ROI

Investing in better sound instead of installation costs will give you better sound! More sound for the money.

Side-by-side systems

Multiple channels ensure no interference from other systems which is common in shopping malls or crowded city areas.

Range

With Audio Pro Business you get a larger range than a WiFi system. Works perfect in large retail areas. Just try us!

Scandinavian design

Innovative product design that can easily be fitted with all types of interior design. Will never get out of date.

Small 100–200 m²

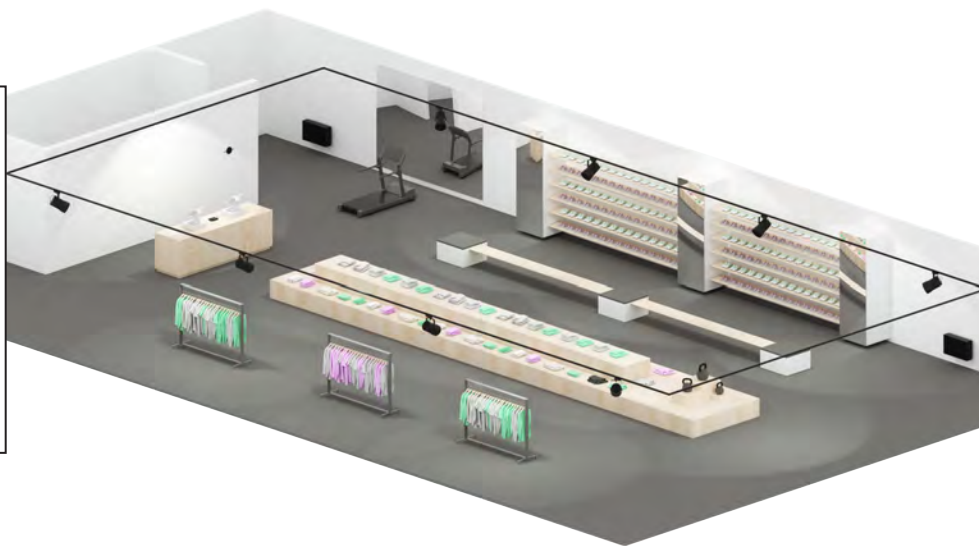

A discrete, easy to install and easy to use solution for your single room store, café or boutique. Just plug in and enjoy the music. Installation should not take longer than 1 hour. This solution gives you a great solution for both lower background music and stronger played music.

4 x SP-3 Wireless speaker
1 x SUB-3 Wireless Subwoofer
1 x TX-1 Wireless transmitter
1 x VOL-1 Control unit

Medium 300–500 m²

The perfect match for medium sized venues, with the possibility to create an adjusted volume zone for each area. Installation 2–3 hours.

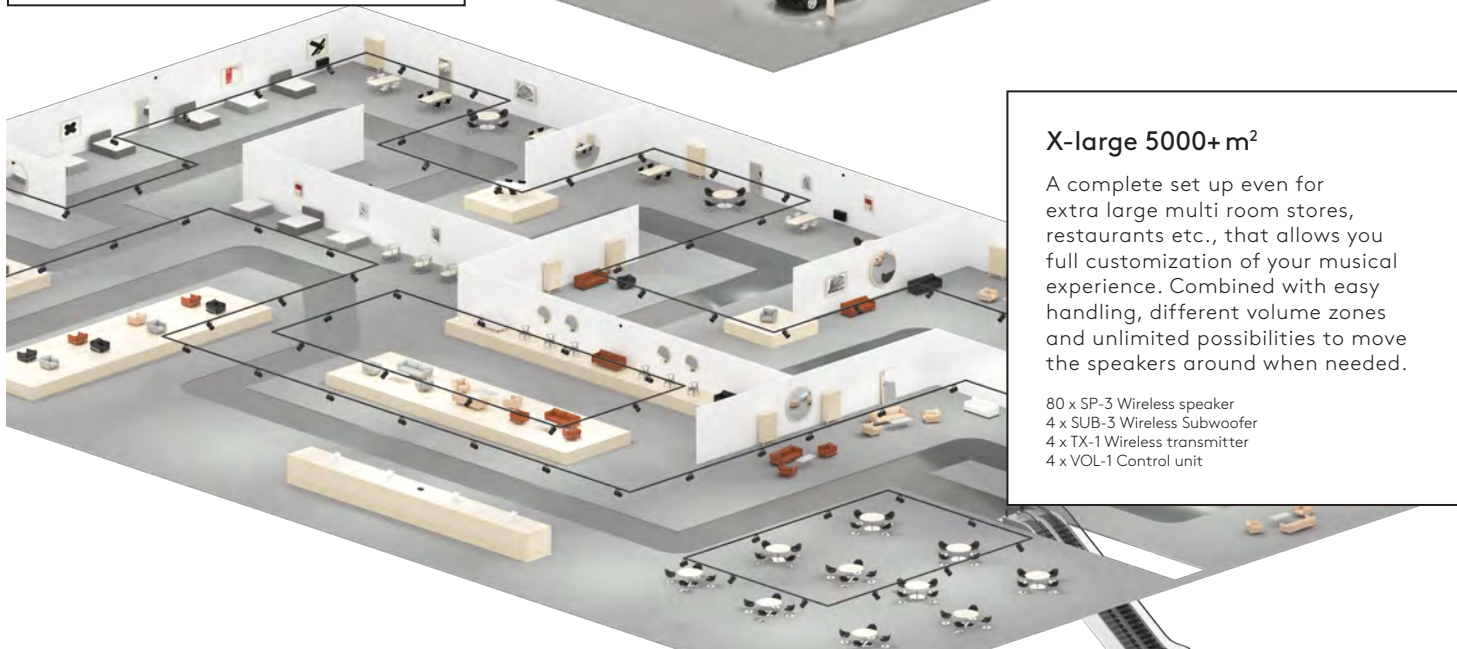

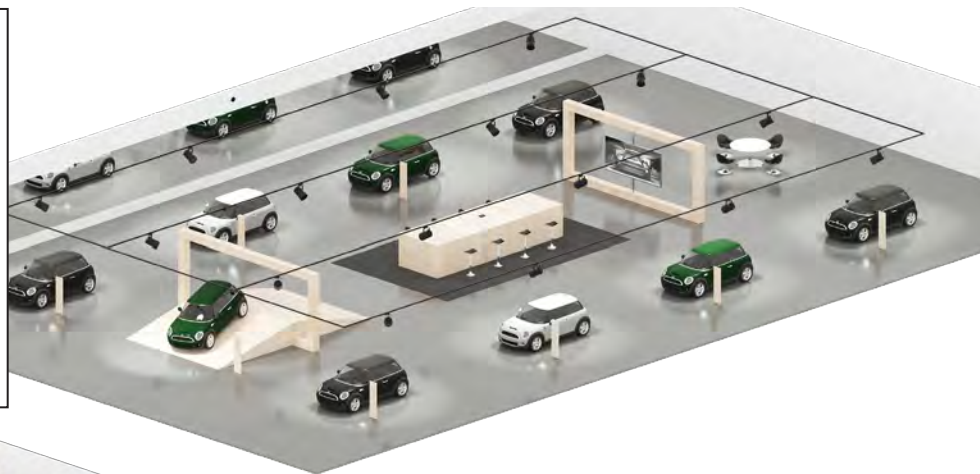

8 x SP-3 Wireless speaker
2 x SUB-3 Wireless Subwoofer
1 x TX-1 Wireless transmitter
1 x VOL-1 Control unit

Large 800-1500 m²

A complete set up even for large multi room stores, hotel lobbies, restaurants etc., that allows you full customization of your musical experience. Combined with easy handling, different volume zones and unlimited possibilities to move the speakers around when needed.

16 x SP-3 Wireless speaker
1 x TX-1 Wireless transmitter
1 x VOL-1 Control unit

X-large 5000+ m²

A complete set up even for extra large multi room stores, restaurants etc., that allows you full customization of your musical experience. Combined with easy handling, different volume zones and unlimited possibilities to move the speakers around when needed.

80 x SP-3 Wireless speaker
