

Highlights:

- Integrated Bluetooth receiver
- 4-channel Dante™/AES67
- Internal mixing & DSP processing
- 2 x XLR inputs

Product information:

The NWP220 is a Dante™/AES67 networked audio input panel, featuring two XLR input connectors and an integrated Bluetooth receiver, which can be used to transmit audio signals in a Dante™ audio network. The audio inputs can be switched between line-level and microphone-level audio signals and phantom power (+48 V DC) can be applied to the XLR input connectors for powering condenser microphones.

Various further integrated functions such as integrated equalizing, automatic level control and other device settings can be configured through the AUDAC Touch™ app.

The front panel is finished with high-grade materials such as hardened glass makes them blend into any environment. These wall panels are compatible with standard EU-style in-wall boxes, these wall panels are the ideal solution for solid and hollow walls.

The IP-based communication makes it future-proof while also being backwards compatible with many existing products. In contrast, the limited PoE power consumption makes it compatible with any PoE network-based installation.

Certification:

PoE

Properties:

Internal mixing & EQ

Additional Inputs:

Bluetooth

Variants:

- NWP220/B - Black version
- NWP220/W - White version
