

PM2/M

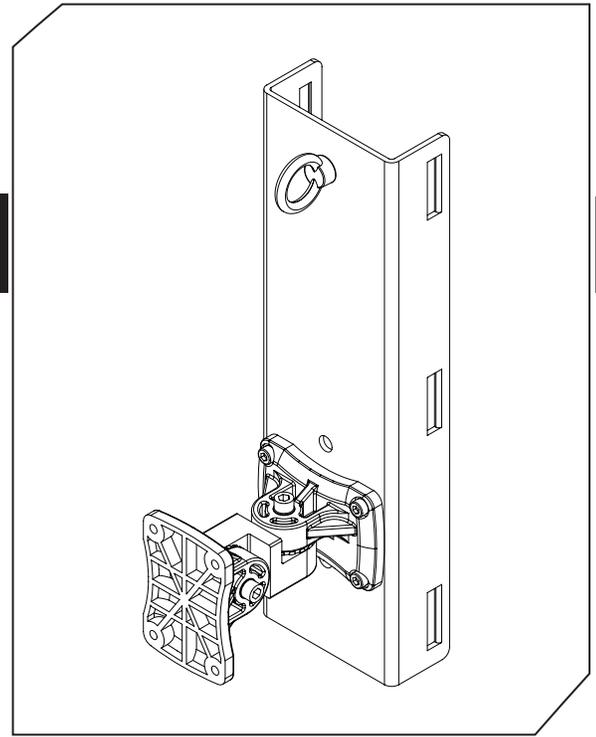

POLE MOUNT SYSTEM

WARNING: Do not attempt to mount multiple brackets side by side using the same banding system. The banding systems are designed for **one** bracket **only!**

The One Systems PM2/M is a 316-grade stainless steel pole mount system designed for pole mounting. The minimum rectangular or square pole face dimension is 3.75 inches (92mm). The minimum circular pole diameter is 4-inches (101.6mm). The PM2/M is designed to be used with the One Systems 104HTH or 106HTH loudspeaker systems only. **DO NOT SUBSTITUTE ANY OTHER LOUDSPEAKERS!**

The PM2/M is designed for use in ocean front, marine or inland direct weather permanent installations. The specific banding required for marine or inland installations may be found in the PM2/M installation manual. The banding system and components are available from BAND-IT-IDEX Corporation. Details and sourcing information are available in the PM2/M installation manual. The PM2/M is constructed from heavy gauge 316 (marine) grade stainless steel. The system consists of the One Systems PT10/M pan and tilt bracket and two center pieces that allow a 10 degree tilt function.

Installation of the PM2/M should be attempted **only** by experienced professionals with knowledge of installation and suspension requirements, as well as knowledge of safety factors required by local and national codes.

FEATURES & BENEFITS

- » Mounts to rectangular, square, or circular poles
- » 316 (marine) grade stainless steel construction
- » Designed for use with One Systems 104HTH and 106HTH speakers
