

KYRA12

Design column speaker 12 x 2"

Highlights:

- Multi-tapping 100V line transformer
- Multi-functional wall bracket allowing swiveling and down-tilting
- Slimline aluminum design
- 12 x 2" high-quality broadband speakers

Product information:

The KYRA12 design column speaker consists of 12 x 2" high-quality aluminum cone full-range drivers, delivering extraordinary clarity and detailed sound. The overall continuous power handling reaches 120 Watt and the beamwidth of 170° x 20° makes it the perfect match for acoustically difficult venues, reducing echo and microphone feedback which optimizes the speech intelligibility in reverberant venues.

A multi-tapping line transformer allows it to be connected to 70V/100V public address systems with different power taps for 40W, 20W and 10W and/or low impedance (10Ω) systems.

Applications:

- Education
- Public facilities
- Corporate spaces
- Houses of worship
- Events

Variants:

- KYRA12/B - Black version
- KYRA12/W - White version

Impedance:

12 Ohm
