

COLLABORATE Space is a cloud video collaboration app that connects hundreds of users joining from any device, anytime, and anywhere for messaging, calling, and meetings.

Messaging

One-to-one and group messaging to send text, images, files etc. and option to filter the files by type. Presence info to see contact's availability status such as online, offline, away, busy.

Calling

Connect with your contacts via audio-only or video call with all sort of collaboration tools such as screen sharing, recording, whiteboarding, annotation.

Meetings

Meet now or schedule your meeting and access a full suite of collaboration features including file sharing, recording, whiteboarding, annotation, chat and meeting minutes.

Channels

Create private or public channels organized by topic, where the owner can invite team members to join, or anyone can view a channel and join without invitation.

Persistent space

COLLABORATE Space provides persistent space to store data such as messages, documents, whiteboards, recordings exchanged on a topic during a call or meeting or anytime.

Any device

COLLABORATE Space runs on any device – mobile, desktop, and, of course, all ClearOne COLLABORATE Live video collaboration room systems, designed for huddle spaces, conference rooms, boardrooms, and more.
