

Highlights:

- Structured and scratch resistant black powder coating
- Assembly screws included
- Compatible with any CASY chassis
- Flexible system for system integration & connectivity
- High grade aluminum construction

Product information:

The CASY103A aluminum module features one hole to fit a D-size connector. This flexible structure for system integration & connectivity can easily be implemented in a wide variety of CASY chassis. The choice of aluminum for these blind plates has a couple of advantages compared to their steel counterparts. Aluminum is much lighter than steel and therefore only adds a little extra weight to a CASY configuration. These blind plates are ideal for quickly modifying and adding custom cut-out holes due to their softer material.

Product Features:

Dimensions	35.5 x 82.1 mm (W x H)	
Weight	0.010 kg	
Cut-out measurement	1 x D-size hole	
Module	Space	1
Construction	Aluminum	

Variants:

- CASY103A/B - Black version
