

The Fairchild for the rest of us

60 years after the birth of the first units, a new generation is born.
500 series version of Heritage Audio's acclaimed Herchild 670.
Fully tube powered stereo compression (2 tubes per channel).
Legendary sound that only takes up 2 slots of your lunchbox.

**The sound of yesterday...
...built for tomorrow.**

...it was supposed to be impossible...

Yes, the GRANDCHILD 670 is a 500 series module based on the praised HERCHILD 670 stereo Vari-MU compressor. Let that sink in...

An unprecedented engineering effort to encapsulate all the mojo of the HERCHILD 670 in a compact 2 slot 500 series module. With 4 NOS tubes and 3 transformers at its core, you can be sure your tracks will receive the attention they deserve with all the warmth and punch you can imagine while maintaining almost no noise or distortion at all making it a great option for Mixing and Mastering.

The GRANDCHILD has the soul of its predecessor, assuring that the king of tube compression sound, that influenced hundreds and hundreds of hits, is now available for you to craft your very own masterpieces!
