# HERCHILD 660

MONO CHANNEL  
TUBE COMPRESSOR

The HERCHILD Model 660 is a tube-based beast that will take your tracks to the next level.

With 11 valves and 5 transformers you can be sure your tracks will receive the attention they deserve with all the warmth and punch you can imagine. A faithful reproduction to the original with a few key additions to make it more practical for modern day studio use. Now with a selectable side chain filter and accessible control to the slope you'll be able to fine tune your compression needs to sculpt the ultimate masterpieces.
